

## **Adding Your Photo to Zoom Via Desktop**

- Log into Zoom on your desktop.
- In the top right corner, click on the blank picture icon.

- This will open your personal account screen.
- Next to your name, click on the account picture icon.

- Here, you will upload your profile picture and click save.

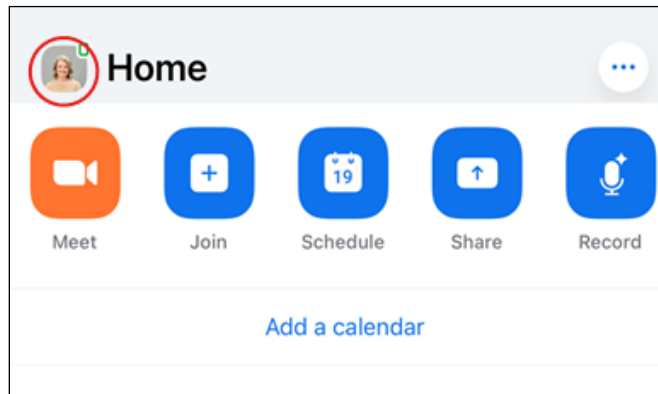

- Your profile picture will now be displayed when your camera is turned off.

## **Adding Your Photo to Zoom Via Mobile App**

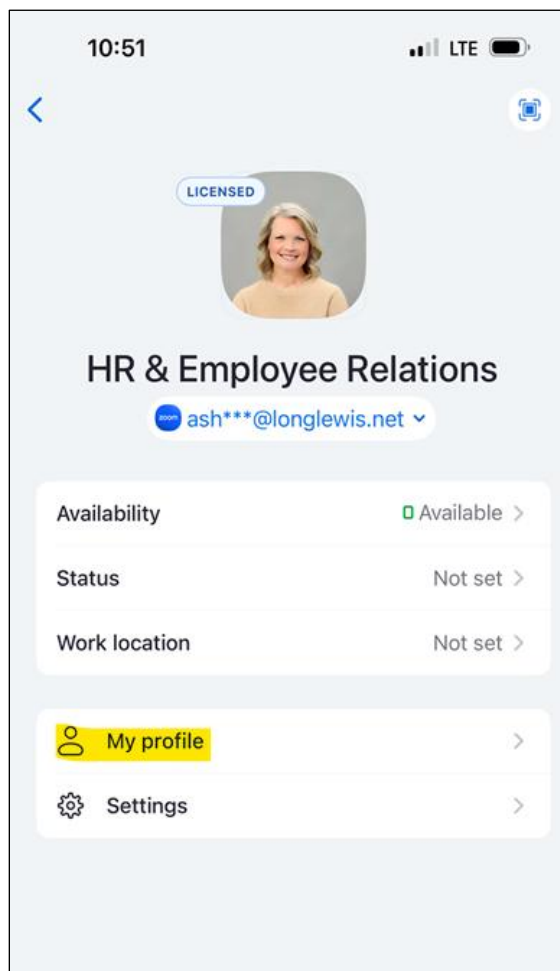

- Be sure you have Zoom downloaded on your mobile device.

- Once logged in, in the top left corner of the screen, click on the picture icon.

- On this screen you will select “My Profile.”

- Click on the picture icon at the top and choose your profile picture.

- Your profile picture will now be displayed when your camera is turned off.
